= Infection Control Feature

Overbed Tables

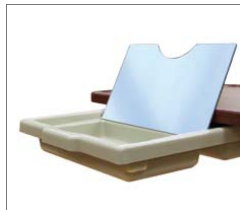

Amico's Overbed Tables combine an attractive, ergonomic design with infection-resistant features. Our laminate thermofoil tops provide durability, and a seamless spill guard edge to reduce infection control issues.

Manufactured with the lowest base in the industry, our overbed tables move easily under any hospital bed or recliner. With an integrated rail on all our tables, accessories can be transferred from the headwall to the table for patient use.

✓ One-Handed Flip Up Secondary Surface

Dual Vanity Drawer and Mirror

Low Profile Base (Under 2")

✓ Seamless Spill Guard Edge

✓ Storage Basket

✓ Urinal Hook

Fetal Monitor Carts

Amico's Fetal Monitor Carts provide aesthetically attractive IT carts that conceal medical monitoring systems in Labor and Delivery environments.

These units can be fully customized to suit clinicians needs, and are made to match the existing casework in the room. Different drawer/door combinations are available as well as an integrated pull-out keyboard tray for easy access.

Delivery Carts

Made in laminate, wood/veneer or thermofoil, our delivery case carts can be customized with drawers, cupboards and even pass through capabilities. With the addition of flip up side tables, the top surface can be extended to hold additional supplies.

Matching the color finish to the built in casework ensures that these clinical pieces look anything but institutional in a beautiful labor and delivery suite.
