Ameda Mya Pro Hospital Strength Breast Pump

The Ameda Mya Pro combines hospital strength with the best of personal breast pump technology into one portable package. Mya Pro offers single or double pumping, with multi-level, independently controlled expression and massage modes that allow moms to fine tune each session. Mya Pro is powerful, ultra-quiet, discreet and safe, with a true closed protection system, retractable handle, built-in night light and timer display. Whatever time of day, Mya Pro helps moms achieve their breastfeeding goals with optimum comfort and ease.

Ameda Mya Pro Features:

- Double or single electric pumping options
- Up to 280mmHg hospital strength suction
- Quiet motor operation for pumping at work or at night
- Independent controls for speed and suction
- Handle with built-in night light for portability
- Backlit digital LCD display
- Timer display easily tracks pumping time
- Memory function remembers the last setting
- Smart auto power off powers down after 30 minutes
- Long, reliable performance backed by a 2-year warranty

Safe

A true closed protection system safeguards against backup of milk into the pump or tubing.

Total Control

Individually adjustable expression and massage modes allow for fine tuning each pumping session.

Portable

Retractable handle with built-in LED light for nighttime pumping.

Quiet Motor

Allows for discreet pumping anywhere.

Handle with built-in night light for easy portability

Night light with 3 levels of LED brightness

Independent speed and suction controls for fine tuning

2-phase adjustable suction modes:

- Expression Mode (12 Levels)
- Massage/Stimulation (5 Levels)
