

Penguin Deluxe Warmer Single Well

Delivering breast milk at body temperature makes a real difference in infant health and nutrition. Ameda Penguin is the ONLY nutritional warmer that:

- ~ Warms to physiological temperature for proper nutrition absorption based on temperature feedback loop technology.
- ~ Operates quietly below the AAP noise level recommendations of <45dB during day time and <35dB during night in NICU for proper neurodevelopment.
- ~ Provides a more even and uniform warming of feedings from all directions. Offers minimal temperature difference within the feeding container.
- ~ Protects breast milk in a safe, closed-system, patented Therma-Liner. Water does not ever come in contact with milk.
- ~ Offers a unique mixing feature that provides continuous gentle mixing throughout warming as recommended by WHO – NO NEED TO SHAKE!

Item Number	Sale Unit	UPC

Penguin Deluxe Warmer Four Well

- ~ Space-saving four-well Penguin nutritional warming system allows for efficient warming of multiple feedings simultaneously
- ~ Each well is independently programmable and features multiple warming options

Item Number	Sale Unit	UPC
PNW00145	1 each	810725024034

Penguin Therma-Liner™

- ~ Jacketed pouch where the feedings are held during the warming cycle
- ~ Features a patented “bag-in-bag” design in a closed system that isolates feedings in an inner pocket away from water for safe warming
- ~ Label space for patient information reducing chances of errors.
- ~ Disposable and 100% recyclable

Penguin Perche

- ~ The Ameda Penguin Perche safely secures the entire Single Well Penguin warming system decreasing chances of accidental tipping over/ falls.
